EDUCATION AND SUPPORT PROGRAMS

- ❖ **First Link® Connections:** A 2-hour session where individuals living with dementia and their care partners join other families in a small group setting. During this session families will learn more dementia and Alzheimer's disease, community supports and resources, programs and services offered through Alzheimer Society's, and how to plan for the future.
 - ❖ **Early Stage Support Groups:** A support group that allows people living with a diagnosis of dementia to meet others in a similar situation. This allows people living with dementia to share their day to day experiences, challenges and also their successes.
 - ❖ **Care Partner Support Groups:** A drop in support group for care partners, allowing them to meet with other care partners who are experiencing similar situations. Care partners will have a chance to connect with others and share what is going well and not so well, while talking about any other topics or questions.
 - ❖ **Young Onset Services:** Specialized support groups for people living with dementia under age 65, their spouses and their adult children. Supports and resources available specific to the needs of young onset dementia.
 - ❖ **Seeds of Hope Family Learning Series:** An education program for care partners who are caring for person living with dementia at all stages of the disease. Professional speakers from the community and health care field will discuss a variety of topics in a small group setting. Group series that are offered are: Living with Dementia (early stage), Living with Change (middle stage), Transitions to Alternative Care (late stage), and Dying with Dignity (end of life).
 - ❖ **Minds in Motion:** is a program designed for people with early to mid-stage Alzheimer's disease or another dementia to enjoy with a friend, family member or care partner. The program combines physical activity and mental stimulation.
 - ❖ **Information and Support Services:** Service provided to people living with dementia or their care partners to speak directly, privately, and confidentially with staff regarding the many issues and circumstances that arise throughout their journey, including navigating the healthcare system.
 - ❖ **Help for Dementia:** An online gathering place for people living with dementia and their care partners to access information, education, and support within an online community.
 - ❖ **Resource Library:** A library that provides a variety of books, videos, pamphlets, and videos/DVDs on many different topics and issues that may arise throughout the journey.
 - ❖ **Public Forums/Live Meetings:** Designed for large audiences, these education sessions focus on topics relevant to care partners, persons with the disease, and the public.
 - ❖ **Presentations:** Staff raise public awareness and understanding of dementia through the delivery of an informative presentation.

MAKING A REFERRAL TO FIRST LINK®

Working together to link individuals and families affected by Alzheimer's disease and other dementias to a community of learning, services and support.

First Link® connects individuals and families to:

- Learning** Dementia education programs offering information about diagnosis and disease progression, day-to-day living, positive approaches to care, strategies for responding to challenges and how to prepare for the future
- Services** Alzheimer Society programs and services, information about other community and health services
- Support** Support groups and individual support

Who to refer to First Link®?

- Individuals diagnosed with Alzheimer's disease or other dementias
- Care partners and family members

When to refer?

- As soon as a diagnosis is made
- At any other time during the progression of the disease

Why refer?

- It is often difficult for individuals and families to ask for help – a referral provides the first step to getting connected with the Alzheimer Society.
- First Link® lets health professionals focus on the medical aspects of dementia care. Staff at the Alzheimer Society can provide ongoing support, education and help in navigating the health care system.
- Patients receive early access to information, services and ongoing support throughout the continuum of the disease.

Who can make a referral?

- Physicians
- Health professionals
- Community organizations and care homes

How to refer?

- Ask the individual or family member for permission to forward their name to the Alzheimer Society's First Link® program.
- Complete the one page **referral form** and fax it to First Link® at **1-877-788-5993** or email it to **firstlink@alzheimers.ab.ca**

What happens when the Alzheimer Society receives the First Link® referral?

- Once the referral is received, a First Link® coordinator will call the individual or family member to discuss their circumstances.
- A package, with information specific to their needs, will be sent along with contact information for community and health services in the area.
- Follow up contact will be made at six, 12 and 18 months, or sooner if required.
- Once contact has been made with the individual or family, a confirmation letter will be sent to the referring professional.
